

Nicholas Yeager

Tucson, Arizona · (760) 996-7075 · yeag123@gmail.com · LinkedIn · GitHub

PROFESSIONAL SUMMARY

AI Solutions Architect with extensive experience leading cross-functional teams in healthcare, finance, entertainment, and nonprofit sectors. Built an industry-first AI pharmaceutical assistant, leveraging full-stack expertise to drive product innovation. Independently designs, builds, and ships production AI/LLM products — a control plane for AI coding agents (rulemetric), an agent-driven game generator (tinyworlds), and an open self-hosted AI stack (fetchtext). Track record of building venture-backed startups (AngelPad accelerator). Microsoft Certified: Azure AI Engineer Associate (Aug 2025).

WORK EXPERIENCE

AI Solutions Architect

Feb 2026 - Present

ScriptSave · Tucson, Arizona

- Spearheading the architectural design and deployment of AI-driven pharmaceutical solutions.
- Integrating advanced LLM workflows and Azure AI services to enhance product capabilities.

Senior Software Engineer

Feb 2023 - Feb 2026

ScriptSave · Tucson, Arizona

- Implemented modern project management methods and frameworks to drive team alignment and efficiency.
- Deployed multiple new products using modern APIs.

Software Engineer

Jan 2022 - Jan 2023

Alicat Scientific · Tucson, Arizona

- Modernized a legacy backend and frontend system.
- Introduced deployment workflows that reduced downtime and errors in a legacy environment.
- Developed a custom CI solution to automate integrations and accelerate release cycles.
- Implemented thorough testing and raised coverage for a large CRM platform.

Software Engineer

Apr 2021 - Dec 2021

USAA (Contract) · Phoenix, Arizona

- Rebuilt core frontend components for their umbrella insurance application.
- Established updated testing and deployment workflows to improve release consistency.

ADDITIONAL EXPERIENCE

Software Engineer (contract) · Delta Thermal Inc

2024

Senior Software Engineer · ScriptSave WellRx

Jun 2020 - Jan 2021

Senior Architect · overlandbound.com

Jan - Jun 2020

Co-Founder & CTO · Outlast (formerly Quoteapro)

Nov 2017 - Sep 2019

Senior Software Engineer · Outlast

Sep 2019 - Jan 2020

Founder & Partner · Rincon Strategies

Jun 2015 - Nov 2017

Developer / Project Manager · Elegant Thought

May 2012 - Apr 2015

AI PRODUCTS

Independently designed, built, and shipped production AI/LLM products end-to-end — owning architecture, roadmap, and delivery for each.

RuleMetric — a control plane for AI coding agents

rulemetric.com

TypeScript/Node monorepo · API, web dashboard, npm CLI, background eval worker

- Built a platform that captures how teams use Claude Code, Cursor, and Copilot and measures which instructions actually improve agent output.
- Designed a two-layer HTTPS proxy capturing full LLM context across 25+ providers (Anthropic, OpenAI, Bedrock, Azure AI, Databricks), plus an evaluation harness that A/B-tests instruction sets against real prompts.

TinyWorlds — text/image → playable 3D world

tinyworlds.us

FastAPI + SSE · agent-orchestration pipeline · Next.js

- Architected a streaming backend orchestrating Claude Code subprocesses through a skill pipeline to generate and compile Godot/Bevy games to WebAssembly, playable in-browser from a prompt.

FetchText — open-source self-hosted AI stack

fetchtext.io

Open Docker Compose template that bootstraps a full local AI/low-code environment (Ollama, Open WebUI, Supabase, n8n, Flowise, Neo4j, Langfuse, SearXNG).

EDUCATION

Bachelor of Arts in Political Science and Government

University of Arizona · Tucson, Arizona

AngelPad · Seed-stage startup accelerator (2017–2018)

SKILLS

Leadership: Team leadership, Cross-functional collaboration, Public speaking

AI & Cloud: Azure AI Services, LLM Integration, Prompt Engineering

Backend: .NET Core, Laravel, Node.js, Phoenix, Flask

Frontend: ReactJS, React Native, Blazor

Languages: Python, PHP, TypeScript, JavaScript, Objective-C, Ruby, HTML, CSS, SQL, C#

HOBBIES

Pickleball Coach
